## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5,7,9 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 1 recites the limitation "said ceiling mounted" in line 10. There is insufficient antecedent basis for this limitation in the claim. Although the claim introduces a "ceiling mounted fixture", there is no indication that the "said ceiling mounted" phrase is referring to the "ceiling mounted fixture" or some other ceiling mounted element. Clarification and correction are required.

### ***Allowable Subject Matter***

4. Claims 5,7 and 9 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. Claim 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 3635

6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the use of a skylight including a tubular conduit having a reflective inner wall formed from an air bubble material. Although, there are some prior art structures formed from air bubble material, there is no suggestion or motivation for forming the tube of a skylight from the combination of an air bubble and a reflective material.
